### Here's What's Happening in Junior Achievement!!

In addition to our core K-12 classroom programs, Junior Achievement of Arizona also offers a unique learning experience for 5th – 6th graders called JA BizTown™.

JA BizTown™ encourages students to learn about the free enterprise system through active participation in a simulated town. Student experiences vary from working in a bank, a television station, or a retail store, to managing personal finance such as writing checks and accounting. With a variety of hands-on activities, students realize the relationship between what they learn in school and their successful participation in a simulated economy. We support this program! We are part of 26,000 kids participating in this fantastic program!

**Sebastian**, our wonderful foreign exchange student, gave a fantastic speech on Ecuador. He was very thorough in his speech and discussed everything from the proper way to greet someone, the history of Ecuador, imports and exports of the country, Universities, his family, his flag, and many other facts of his country.

Four Peaks Rotary has certainly enjoyed having Sebastian here and as part of our lives. He will be heading home soon, and he will surely be missed by us!
